Teinté chrome/verre
 Chromecoloured/glass

Eye-alu

Eye-chrom

Spot-alu

Spot und Eye Lampen/lampes/lamps

sind beinahe bei allen Kopfteilen montierbar und sorgen für Funktionalität und gute Stimmung.

Lampes Spot et Eye sont montables avec la quasi totalité des têtes de lit et assurent une fonctionnalité et une bonne ambiance.

Lamps Spot and Eye can be assembled nearly with all headboards and ensure a functionality and a good atmosphere.

Magic-Light

Hintergrundbeleuchtung geeignet bei Glaskopfteil-Flash und Alexandria oder bei Wandpaneelen.

Eclairage indirect adaptable aux têtes de lit en verre Flash et Alexandria et aux panneaux muraux.

Background lighting suitable for glass headboards Flash and Alexandria or for wall panels.

Mitteltraverse

Grundsätzlich empfehlen wir ab einer Bettbreite von 160 (bei 2 Lattenrosten) eine Mitteltraverse zur Verstärkung des Bettrahmens und besseren Stützung der Lattenroste.

Traverse centrale

En principe nous recommandons une traverse centrale de renforcement du cadre de lit à partir de la largeur 160 (avec 2 sommiers). Ceci garanti également un meilleur support des sommiers.

Central cross bar

Principally we recommend a central cross bar as reinforcement of the bedframe from a width of 160 (with 2 slats). Thus guarantees also a better support of the slats.
